### Poster Presentation General Information

---

Posters will be available to registered participants from the beginning of the congress and will remain in the virtual library for 90 days.

#### Presentation

- **Mandatory:** a poster complying with the guidelines for upload of final contributions. Posters for virtual display must be prepared in **PORTRAIT** style (please **DO NOT** prepare a landscape poster) in **PDF format**. The maximum format of the poster is **A0 one page** (i.e. 841 x 1189 mm). Do **NOT** exceed the overall dimensions of the format.
- **Optional but strongly encouraged:** a short pre-recorded video presentation (5 min/4 slides max) that has to be **pre-recorded** and **uploaded** to the congress virtual platform **no later than the 19th July**.
- No live presentation but the designated author must be present at the allocated poster session to chat and answer questions from the audience in real time
- The exchange of questions and answers can continue for the whole period (i.e., 90 days) during which the poster is displayed.

#### Optional Video-Commentary Requirements

- recording must be in a separate MP4 file format
- the file size limit is 200 MB
- a bit rate of <1Mbps is recommended to ensure optimum playback experience for the users
- maximum video time is **5 minutes**
- The easiest way to create the video for upload when using Power Point is to create a voice over PowerPoint. More information can be found at: [Powerpoint](#) or [HERE](#)
- Convert your PowerPoint to MP4 video file. More information can be found [HERE](#)

#### Tips for recording

- Use an area as quiet as possible.
- Avoid areas that have echo. Rooms should be fairly small. Sound damping with carpeting, curtains, furniture helps.
- Use a good headset with its microphone close to the mouth, **BUT** away from the direct airstream of the mouth to reduce “pops”. Avoid using the default built-in microphones of the computer.
- Do a test recording of a couple of minutes and review the sound and picture quality, MP4 format, and bit rate before recording the entire presentation. Adjust if needed.
- When entering Power Point’s presentation mode, we recommend using the laser pointer (in full screen mode: right mouse click --> pointer options --> laser pointer).
- Remember dress code, business casual is preferred. Prefer white walls in the surroundings, light your face and do not position your camera against windows.
